SAVE up to 30% with a Group License

Looking for comprehensive licensing coverage for your diocese, synod, school district, retirement community, or other administrative network? ONE LICENSE offers group licenses as an efficient and affordable means of managing music in worship.

With the help of the Group Manager, individual suborganizations within the Group can select any of our Annual licensing options, and the pricing is consistent with the information for the selected licenses on this page. While the vast majority of our Groups opt for the Annual Reprint + Podcast/Streaming License Bundle, we do provide other options for mixing license types. Significant discounts are available based on the size of your Group.
